

2023 Employee Benefit Eligibility Information

Prepared for employees on assignment with your local staffing and recruiting provider, a partner of People2.0.

People2.0 values the contributions of its employees, and we offer benefit solutions that are in full compliance with the Affordable Care Act (ACA). The minimum essential coverage (MEC) plans provide affordable coverage that meet the requirements under the ACA. In addition to the health benefits, employees will have an opportunity to elect supplemental benefits including, dental, vision, disability, life insurance, accident insurance, critical illness, and hospital indemnity coverage.

Please carefully review the enrollment guide so that you understand the benefits being offered and can make the right choices for yourself and your family.

At your time of hire, you have been designated as:

Full-Time Part-Time

Full-Time Status

If your first assignment is one in which you are expected to work an average of 130 hours/month over the course of the year, you will be eligible for ACA-compliant health insurance. For full-time employees, People2.0 and its partners contribute toward the premiums for the preventative care plus (MEC), the PPO standard (MEC Plus), the \$3000 deductible (MVP) plan.

Part-Time Status

If you are a part-time employee (working under 30 hours per week) or are unsure how many hours or months you may be working in your initial assignment, you are considered a "variable-hour" employee under the ACA. Variable-hour employees are eligible for the MEC and MEC Plus Plans, but not the MVP plan.

People2.0 will track your work hours over the course of your first year of employment. If you reach 1,560 hours by the end of that period, you will then be considered "full time." At that time, you will be offered additional health insurance which will take effect 30-days after you have completed 12-months of employment.

Preventative Care Plus (MEC)

- Plan pays 100% of the ACA-required preventive services when utilizing an in-network provider. For 2023, this plan also provides limited physician and prescription drug co-payments.

PPO Standard Plan (MEC PLUS)

- Plan offers prescription drug coverage, co-payments, and lower out-of-network costs than the standard MEC Plan.

\$3,000 Deductible Plan – MVP

- A minimum value plan includes major medical coverage for hospitalization that meets the ACA Affordability guidelines of 9.61% for 2023 of your income for employee only coverage.

In addition to medical benefits, employees have an option to dental, vision, disability, and life insurance, hospital indemnity, accident insurance and critical illness. Details on these plans are available in the benefit summary.
